Education

UC Santa Cruz

BS IN TECHNOLOGY & INFORMATION MANAGEMENT (TIM), MINOR IN HISTORY

GPA: 3.58

Santa Cruz

Sep 2022 – Jun 2026

Work Experience

Better Behavior Foundation

DATA ANALYST, BEHAVIORAL ANALYTICS

- Designed and ran A/B experiments built with Qualtrics and custom HTML/JavaScript.
- Analyzed experimental data with Excel + Python. Translated findings into design recommendations.
- Supported business growth through partnership development and securing grant funding, and co-authored an academic peer reviewed paper for a sustainability journal

Santa Cruz, CA

Nov 2025 – Present

University of California, Santa Cruz

ADMINISTRATIVE ASSISTANT

- Student Administrative Assistant at UCSC STARRS (Services for Transfer Re-entry and Resilient Scholars Students) EOP (Educational Opportunity Programs) office, and the UCSC Family Student Housing Office
- Coordinated scheduling and appointment management for students and staff, maintained student records and data tracking in Excel.

Santa Cruz

Jun 2025 – Jun 2026

Petaluma Golf and Country Club

GREENSKEEPER

- Maintained the grounds and golf course of a private country club, working closely with members and staff.

Petaluma, CA

Jun 2024 – Sep 2024

Skills

Programming:	Python, SQL, Jupyter, OR-Tools, Agentic LLMs
Data & Statistics:	Experimental design (A/B testing), Statistical analysis, Data Mining
Data Engineering:	dbt, Postgres, RabbitMQ, Snowflake
Infrastructure & Ops:	Docker, Network segmentation, BI dashboards (Grafana, Metabase)
Optimization & Modeling:	Linear/Integer Programming, Resource allocation modeling
Applied:	Project Management, Business problem structuring, Research analysis
Technical:	Excel/Sheets, Microsoft Office/Google Workspace

Projects

Nudging climate contributions at airline checkout: Increasing real giving in simulated book flows. (Better Behavior Foundation) *Experimental design, Qualtrics, Python*
<https://cassie7511.github.io/>

CO-AUTHORED AN ACADEMIC PAPER ON DONATION UX EXPERIMENTS IN SIMULATED CHECKOUT FLOWS, INFORMING UX DESIGN RECOMMENDATIONS FOR AIRLINES.

Cassie's CalTrackerAI

INSTALLABLE AI CALORIE AND MACRO TRACKER WEB APP BUILT WITH THE CLAUDE API, CLOUDFLARE WORKERS, AND INDEXEDDB. FEATURING IMAGE UPLOADING FOR MACRO ESTIMATIONS, USED BY ALL MY ROOMMATES AND GYM FRIENDS AT UCSC. *Claude API, Cloudflare Workers, JavaScript*
<https://cassie7511.github.io/>

Course Projects

Feature-Flagging Platform – Dimensional Data Warehouse

DESIGNED AND BUILT A DBT/POSTGRES DATA WAREHOUSE MODELING REVENUE AND ADOPTION METRICS FOR EXECUTIVE REPORTING. *dbt, Postgres, SQL, Dimensional modeling*
<https://cassie7511.github.io/>

AdStream – Two-Stage Ad Allocation & Ordering Engine

BUILT A TWO-STAGE MILP + LOCAL SEARCH MODEL ALLOCATING AD IMPRESSIONS, USING 100% OF INVENTORY AND LIFTING REVENUE ~14.6%. *OR-Tools, Snowflake data, Mixed-Integer programming*

Client Health Analytics

BUILT CHURN-RISK AND LIFETIME-VALUE MODELS AND CLIENT SEGMENTATION VIA CLUSTERING, DELIVERING AN EXECUTIVE RETENTION REPORT. *Python, Jupyter, Predictive modeling*
