Education

UC Santa Cruz

BS IN TECHNOLOGY & INFORMATION MANAGEMENT (TIM), MINOR IN HISTORY
GPA: 3.58

Santa Cruz
Sep 2022 – Jun 2026

Work Experience

Better Behavior Foundation

BEHAVIORAL DATA & EXPERIMENTATION ANALYST

Santa Cruz, CA
2026 – Jun 2026

- Designed and ran randomized A/B experiments built with Qualtrics and custom HTML/JavaScript.
- Analyzed experimental data and translated findings into design recommendations; authored a white paper of the results.
- Supported business growth through corporate outreach and partnership development, positioning BBF as a behavioral optimization partner.

University of California, Santa Cruz

ADMINISTRATIVE ASSISTANT

Santa Cruz
Sep 2025 – Jun 2026

- Student Administrative Assistant at UCSC STARRS (Services for Transfer Re-entry and Resilient Scholars Students) and EOP (Educational Opportunity Programs) office.

University of California, Santa Cruz

ADMINISTRATIVE ASSISTANT

Santa Cruz
Jun 2025 – Sep 2025

- Student Administrative Assistant for the UCSC Family Student Housing office.

Skills

Programming:	Python, SQL, Jupyter, OR-Tools
Data & Statistics:	Experimental design (A/B testing), Statistical analysis, Data Mining
Data Engineering:	dbt, Postgres, RabbitMQ, Snowflake, Dimensional modeling (star schema)
Infrastructure & Ops:	Docker, Network segmentation, BI dashboards (Grafana, Metabase)
Optimization & Modeling:	Linear/Integer Programming, Resource allocation modeling
Applied:	Project Management, Business problem structuring, Scenario analysis, Research analysis
Technical:	Excel/Sheets, Microsoft Office/Google Workspace

Projects

Donation UX Experiments – White Paper (Better Behavior Foundation)

Experimental design, Qualtrics,
Python, Data Analytics

CO-AUTHORED A WHITE PAPER ON DONATION-AT-CHECKOUT BEHAVIOR: DESIGNED RANDOMIZED UX EXPERIMENTS IN SIMULATED CHECKOUT FLOWS, ANALYZED DONATION OUTCOMES ACROSS COMPETING DESIGNS, AND REPORTED FINDINGS WITH ACTIONABLE DESIGN RECOMMENDATIONS.

<https://cassie7511.github.io/>

Feature-Flagging Platform – Dimensional Data Warehouse

dbt, Postgres, SQL, Dimensional
modeling

DESIGNED AND BUILT A DATA WAREHOUSE (DBT OVER POSTGRES) FOR A SUBSCRIPTION SOFTWARE PLATFORM, MODELING REVENUE AND ADOPTION METRICS AND DELIVERING EXECUTIVE REPORTING FOR A STRATEGY REVIEW.

<https://cassie7511.github.io/>

AdStream – Two-Stage Ad Allocation & Ordering Engine

OR-Tools, Snowflake data,
Mixed-Integer programming

DEVELOPED A TWO-STAGE MILP + LOCAL SEARCH MODEL TO ALLOCATE AD IMPRESSIONS AND SEQUENCE ADVERTISERS UNDER CAPACITY, TOPIC-MATCHING, AND SPACING CONSTRAINTS, USING 100% OF INVENTORY AND INCREASING NET REVENUE BY ~14.6%.
